## 30 Day Check-in

How is it going? Do you need to readjust your goals? Or are you still on track?

Look back at your symptoms from Week 1. Do you still have all of them? If not, which ones are gone?

Any new symptoms? (This is perfectly normal - as you become more in tune with your body you'll notice more and more and sometimes even get super nitpicky.)

# 60 Day Check-in

How is it going? Do you need to readjust your goals? Or are you still on track?

Look back at your symptoms from Week 1. Do you still have all of them? If not, which ones are gone? What about from Day 30?

Any new symptoms? (This is perfectly normal - as you become more in tune with your body you'll notice more and more and sometimes even get super nitpicky.)

# 90 Day Check-in

How did it go? Did you achieve your goals for these 3 months? Are you going to keep at it?

Look back at your symptoms from Week 1. Do you still them? If not, which ones are gone? What about from Day 30? And Day 60?

Any new symptoms? (This is perfectly normal - as you become more in tune with your body you'll notice more and more and sometimes even get super nitpicky.)

#### HOORAAAY!

You should be SO proud of yourself for making it through these 90 days! I know I am proud of you!! Whether you did this to stick to strict Paleo, to learn more about your eating habits, to lose weight, to lessen inflammation in your body, or to curtail certain symptoms, you have taken 90 important steps in your journey. Each day may have not seemed significant, but each day was a step towards lasting health. And health is the best wealth we have! Even if you had a few days of going in the wrong direction, they most likely taught you quite a bit about yourself and in a way then still pointed you in the right direction.

This is by no means the end of your journey. You can print this out and start over again, or just keep the healthy habits you've learned and incorporate them in your everyday life. Either way, I am here to support you!
